

## ODYSSEY Extreme Series Battery

# ODX-AGM78

(Group 78 with 3/8 inch threaded side receptacles)

Whether for everyday or emergency use, today's vehicles are loaded with more electronics than would have been imaginable just a few years ago. ODYSSEY batteries have been designed to keep up with the changes. Because their plates are made of pure virgin lead (unlike the lead alloy in most batteries), we can pack in more plates. And more plates mean more plate surface area, and much more power – twice the overall power and three times the life of conventional batteries – up to 400 cycles at 80% depth of discharge!

ODYSSEY batteries deliver the massive starting power, rapid recovery, and amazing deep cycling capability that today's vehicles demand.

## Dimensions

Length	10.86 in
Width	6.77 in
Height	7.34 in
Height (container)	7.34 in
Weight	49.50 lbs

## Specifications

Voltage	12
Pulse (5 second) Hot Cranking Amps (PHCA)	1500
Cold Cranking Amps (CCA)	850
HCA	1250
MCA	1050
20Hr Nominal Capacity (Ah)	68
10Hr Nominal Capacity (Ah)	62
Reserve Capacity Minutes	135
Terminal	Side
Torque Spec in-lbs (Nm max)	60 (6.8)
Internal Resistance	2.5
Short Circuit	3100
